Sue has been a Nationally Certified massage therapist since 2008 and is fully accredited to practice massage therapy in Indiana. She was introduced to the world of massage and energy work as she was recovering from cancer several years ago. It made such a difference to her that she decided to train to become a massage therapist. She graduated from *Indiana Therapeutic Massage School* in Indianapolis and has returned there as an instructor. Sue practices Qigong, is a satisfied acupuncture patient of Dr. Yang, and is pleased to be a part of Yang Health Center.
